Overview

The Community Development Administration and Land Reutilization Authority of the City of St. Louis (“City”) are seeking redevelopment proposals for property owned by the Land Reutilization Authority and located at 4066 Russell (the “Site”), in the Shaw Neighborhood.

The City’s redevelopment goals for the Site include renovation of the existing structure to accommodate a viable commercial use.

The City will give special consideration to proposals that involve a restaurant use. Alternative uses that fit within the residential make up of the neighborhood will be considered.

City policy is to sell redevelopment property at fair market value. Offer price will be one of multiple criteria considered when evaluating proposals.

Proposals must be submitted to St. Louis Development Corporation (SLDC) in care of Dawn Doty at 1520 Market, Suite 2000, St. Louis, MO 63103.

Site Facts

- The Site consists of one parcel, approximately 11,256 square feet.
- The building, built in 1960, has approximately 2,145 square feet and is vacant.
- The parcel ID number is 494100005.
- The Site is zoned F, Neighborhood Commercial
- The Site is located in the Shaw neighborhood of south St. Louis City.

Redevelopment Goals

The redevelopment goals for the RFP include:

- A. *Redevelop the building with a viable commercial use.* The building needs to be redeveloped as a positive contributor to the neighborhood, and the City. The City will consider a wide range of viable commercial uses that accomplish this. For years this building has been either misused or vacant and has been a blight on the neighborhood.
- B. *Contribute to the commercial activity in the Shaw Neighborhood.* The Site is located in a largely residential area that includes small clusters of neighborhood-oriented retail and services. Redevelopment of the Site should support commercial activity by contributing to market demand and/or by providing complementary goods and services and/or employment opportunities for the area.

Incentives

The City is prepared to assist the proposed developer in obtaining the various development incentives available to make this project a success. Incentives include but are not limited to:

- Tax Abatement
- Tax Increment Financing
- Local Development Loan Assistance
- Any applicable State tax incentive
- Environmental abatement assistance

It will be left to the respondent to identify the appropriate use of these resources and any other resources to make this project financially successful
